Serving Rural India
TO
SRI SATHYA
SAI BABA
WITH
Love &
Humility
Sri Sathya Sai Baba was born Sathyanarayana Raju in the year 1926 at Puttaparthi, a small, pastoral village in India’s Andhra Pradesh state. He grew up to be loved and revered as a humanitarian and a spiritual leader the world over. His message of ‘Love All-Serve All’ and ‘Help Ever-Hurt Never’ formed the basis for all the philanthropic work in the fields of education, healthcare and water He pioneered. Baba’s simple yet effective teachings on life and spirituality continue to guide us even today. His mission of touching the hearts of individuals and transforming societies through acts of selfless love and service lives on.
OUR GUIDING PHILOSOPHY

Bear all, do nothing;
Hear all, say nothing;
Give all, take nothing;
Serve all, be nothing.

—BABA
The altruistic activities in the areas of education, healthcare and sociocare are carried out under the following trusts and society. These institutions are managed independently, each by a separate Board of Trustees and governed by the statute under which they are set up. They are, however, united in the purpose of extending loving service and contributing to nation building.
SRI SATHYA SAI HEALTH AND EDUCATION TRUST

Sri Sathya Sai Health and Education Trust was established in May 1970 in Bangalore as a public charitable trust, under Section 12 A of the Income Tax Act, 1961. It sets up and runs healthcare institutions across India that offer quality medical care to all, totally free of cost. It currently runs and manages the Sri Sathya Sai Sanjeevani Centres for Pediatric Cardiac Care in three locations - Atal Nagar (formerly Naya Raipur) - Chhattisgarh, Palwal - Haryana and Kharghar, Mumbai - Maharashtra.

SRI SATHYA SAI LOKA SEVA TRUST

Known previously as the Loka Seva Vrinda, the Sri Sathya Sai Loka Seva Trust was registered at Chikkaballapur in 1978 to run the two educational campuses in Alike (Dakshina Kannada district) and Muddenahalli (Chikkaballapur district). Together, these two campuses run nine institutions that impart primary, higher primary and secondary education including pre-university courses. The two campuses are presently governed by separate managements in Alike and Muddenahalli. The purview of this annual report is limited to the activities of the educational institutions located in Muddenahalli only.
**ABOUT US**

This institution was established in the year 2011 with alumni of the Sathya Sai Educational Institutions as trustees. Registered in Chikkaballapur district, the trust defines offering free, values-based education to children as its purpose. The Sri Sathya Sai Vidyaniketanam in Gulbarga, the Sri Sathya Sai Sharadaniketanam in Mandya and the Sri Sathya Sai Divyaniketanam and Sri Sathya Sai Sriniketanam in Chikamagalur district are run by this trust.

---

**SRI SATHYA SAI SARASWATHI EDUCATION TRUST**

This trust was set up in 1981 at Chikkaballapur to offer education that can mould children to excel in academics and cultivate a holistic personality. The following schools and colleges are managed by this trust:

- a) Sri Sathya Sai Premaniketanam, Vijayapura
- b) Sri Sathya Sai Sathyaniketanam, Hassan
- c) Sri Sathya Sai Vaniniketanam, Gadag
- d) Sri Sathya Sai Prashanthiniketanam – Centre for Human Excellence and Pre-University College for Girls, Chikkaballapur
- e) Sri Sathya Sai Prashanthiniketanam Pre-University College for Girls, Siddipet, Telangana
- f) Sri Sathya Sai University for Human Excellence – Gulbarga, Karnataka
- g) Prashanthi Balamandira School, Chikkaballapur
- h) Sri Sathya Sai Sattvaniketanam, Uttara Kannada
- i) Sri Sathya Sai Sevaniketanam, Koppal
- j) Sri Sathya Sai Vishwaniketanam, Bellary
- k) Sri Sathya Sai Karunyaniketanam, Tumakuru

---

**PRASHANTHI BALAMANDIRA TRUST**

This trust was set up in 1981 at Chikkaballapur to offer education that can mould children to excel in academics and cultivate a holistic personality. The following schools and colleges are managed by this trust:

- a) Sri Sathya Sai Premaniketanam, Vijayapura
- b) Sri Sathya Sai Sathyaniketanam, Hassan
- c) Sri Sathya Sai Vaniniketanam, Gadag
- d) Sri Sathya Sai Prashanthiniketanam – Centre for Human Excellence and Pre-University College for Girls, Chikkaballapur
- e) Sri Sathya Sai Prashanthiniketanam Pre-University College for Girls, Siddipet, Telangana
- f) Sri Sathya Sai University for Human Excellence – Gulbarga, Karnataka
- g) Prashanthi Balamandira School, Chikkaballapur
- h) Sri Sathya Sai Sattvaniketanam, Uttara Kannada
- i) Sri Sathya Sai Sevaniketanam, Koppal
- j) Sri Sathya Sai Vishwaniketanam, Bellary
- k) Sri Sathya Sai Karunyaniketanam, Tumakuru
SRI SATHYA SAI ARADHANA TRUST

This trust was set up in the year 2014 and was registered in Chikkaballapur district, Karnataka as a religious trust under the Charitable and Religious Trusts Act 1920. All yajnas, pujas, religious and spiritual talks by learned scholars (in Sathya Sai Grama, Muddenahalli) are organised and conducted by this trust.

SRI SATHYA SAI PREMAMRUTHA PRAKASHNA SOCIETY

This society was registered in 2012 at Mandya district, Karnataka as the Loka Seva Trust’s books, publication and communications division. Through several books, event updates at Muddenahalli and Sanathana Vani, the radio channel, this arm communicates Baba’s message of unity of religions and loving service.
SRI SATHYA SAI ANNAPOORNA TRUST

This charitable trust was set up in November 2015 to serve nutritious, well-balanced breakfast to all school-going children in rural India. It is headquartered in Sathya Sai Grama, Muddenahalli, Chikkaballapur district of Karnataka, India.

SAI GLOBAL FEDERATION OF FOUNDATIONS

The SAI Global Federation of Foundations (SGFF) is the parent body of all the trusts, foundations and societies registered in India and overseas. It is a supporting body or a platform for its member-organisations to collaborate and support each other in the journey of service and transformation. It is registered in the United States of America as an LLC under section 501 (c)(4) of the Internal Revenue Code for promoting social welfare.
'Love All, Serve All'. As simple as it sounds, it is as profound as it can be. The timelessness of this message of Bhagawan Sri Sathya Sai Baba inspires us every day at our institutions of education, healthcare, nutrition, sociocare and global spiritual and human development centres.

Identifying gaps in societal needs and addressing them in a holistic and sustainable manner defines our approach to service across sectors. And so, most of our institutions are located in remote and rural parts of India. The overarching focus is to bring care to the doorstep of the needy and deliver services to all absolutely free of cost sans any discrimination.

Even after the physical demise of Sri Sathya Sai Baba in 2011, it is His spirit of service that inspires and guides us to touch more lives with each passing day. We now have over 30 educational institutions in 14 districts of Karnataka, one intermediate college in Telangana and a University for Human Excellence. On the healthcare front, we operate three paediatric cardiac care hospitals in India with the country’s largest Biobank for Congenital Heart Disease engaged in Advanced Human Genomic Research. These hospitals have treated over 80,000 young children from congenital heart disease. A nutritional revolution serves breakfast to two lakh hungry school goers every morning in India and about 25,000 expecting mothers have been cared for through the Divine Mother and Child Health Programme enriching them with nutrient supplements. Globally, we operate three hospitals in Nigeria, Sri Lanka and Fiji and eight other human development centres in other countries.

The infallible amalgamation of divine will and human endeavour, led by the persistent and committed efforts of thousands of stake holders, staff, patrons and donors have made such a feat possible in just seven years. Our gratitude to each and every one of them.

This Annual Report - 2018 of the Sri Sathya Sai Loka Seva Group of Institutions is our promise to each of you to recommit ourselves to keep doing what we do with greater vigour and dedication in the coming years.

As Robert Frost put it, ‘We have promises to keep and miles to go before we sleep.’

With much gratitude,

MADHUSUDAN

Each One Educate One Foundation
Empowering rural India through education
Education, Healthcare and Nutrition are today the holy trinity that will help us achieve sustainable development goals (SDG) as laid out by the United Nations. The Sri Sathya Sai Loka Seva Group of Institutions and all the allied trusts ensure that these millennium goals are achieved. This, the institution achieves through global and local partnerships with governments, the private sector, civil society and citizens to make sure we leave a better world for future generations.

“True education is not for a mere living, but for a fuller and meaningful life.”

—BABA
SRI SATHYA SAI LOKA SEVA
GROUP OF INSTITUTIONS

The Sri Sathya Sai Loka Seva Group of Institutions is the umbrella organisation under which all the schools and colleges are categorised and totalled. Currently, the Group has under its banner, schools and colleges in 13 districts of the southern states of Karnataka and Telangana. The schools are managed and administered by the Prashanthi Balamandira Trust, Sri Sathya Sai Saraswathi Education Trust and the Sri Sathya Sai Loka Seva trust.

The Group gets its name from Loka Seva Vrinda that was founded by Late Sri Madiyal Narayan Bhat. He established the two schools in Karnataka in the years 1962 and 1973 - first in Alike and later at Muddenahalli. Upon his untimely demise, Sri Sathya Sai Baba, who he treated as his Guru, formally took over the schools under the newly-formed Sri Sathya Sai Loka Seva Trust.

SRI MADIYAL NARAYAN BHAT
(Nov 1927 - Jan 1977)
EDUCATION FOR TRANSFORMATION

From the Chancellor's Desk

Obtaining quality education is the fulcrum of sustainable development in the world. I say this after witnessing the impact of education on children who are part of our schools. Very simply, I see it reducing poverty, improving quality of life and creating hope for the future.

Also, the link between education and health is reciprocal. We’ve seen how good education leads to good health and vice versa. Parents too notice behavioural changes in their wards and have cast away unhealthy habits and practices, the kids tell us.

While these achievements will embolden us to continue with what we did in the last eight years, we will make bolder strides to meet the broader education goals- Inclusion and Equity. We will strive to include all those who are being left out because they don’t grade well in math and money. Our scholarship scheme will seek and embrace those children whose parents cannot pay for them to live in a hostel by paying for them. In addition, special efforts by the teachers and volunteers shall be put in to ensure the children do well in their classrooms.

And because we would never want our girls to be left behind, we will focus equally on girl-child education. Five new schools for girls across two states will help break the inter-generational myth of social norms and poverty further.

That’s a glimpse of the next year for you. You might think we have a lot on our plate, but I am of the belief that we must keep filling it until every child in India and the world is educated and transformed. Let’s together nourish minds.

Sincerely,

BN Narasimha Murthy
Chancellor, Sri Sathya University for Human Excellence.
Chief Mentor, SSSLSG.
VISION

MISSION

VALUES
VISION

To impart values-based universal and integral education to all children without any discrimination and at absolutely no cost to them, to help grow them into good human beings with brilliant intellect, compassionate heart and competent hands.

MISSION

To establish top-quality educational institutions based on the ancient Gurukula system of education in every district in the state of Karnataka and eventually in every district of India.

VALUES

The life and message of Sri Sathya Sai Baba is our guiding light. It is our constant endeavor to model our educational institutions to reflect his teachings. Baba’s 3Hs – harmonise the heart, head and hand - form our overarching principle. It is the benchmark we constantly strive to meet and the promise we always wish to keep.
Suganesh lost his parents and sister to unfortunate circumstances when he was just 13. He is survived by his 86 year-old grandmother who uses her income of Rs 500 a month to give her grandson all she can. Despite these odds, Suganesh showed much enthusiasm in academics and sports. The headmaster of the local government school then encouraged him to enrol himself in the Sri Sathya Sai Loka Seva High School. A bigger school only led to better feats. Today, Suganesh is a class leader, a medal-winner, athlete and a much-loved pal.

SUGANESH S

Sri Sathya Sai Loka Seva High School

TALENT THRIVES WHEN OPPORTUNITY BECKONS. WE AIM TO ENLIVEN THE DREAMS OF MANY SUCH STUDENTS.
The Sri Sathya Sai system of integral education focuses on fostering the development of the whole child so that all students across geographies, cultures and economic backgrounds can thrive. The faculties of the head, hand and heart are exercised and acuminated to make the students socially responsible and spiritually aware, academically brilliant and ideal in character. This is enabled by ensuring that all schools and colleges offer education completely free of cost, learning is holistic and the residential model of schooling entrenches a feeling of fraternity and love amongst all students.

**FACETS OF SATHYA SAI EDUCATIONAL INSTITUTIONS**

- **Free schooling for all**
- **Gurukula-like residential schools**
- **Modern Infrastructure + facilities**
- **Values-based education**
- **Focus: Human+ Academic + Co-curricular excellence**
THE SRI SATHYA SAI LOKA SEVA GROUP TODAY HAS SCHOOLS AND COLLEGES IN 13 DISTRICTS OF KARNATAKA AND TELANGANA.

Educare has two aspects, the worldly and the spiritual. Worldly education brings out the latent knowledge pertaining to the physical world. Spiritual education brings out the inherent divinity in man. So, both worldly and spiritual education are essential, without which the human life has no value.

—BABA
The Sri Sathya Sai Loka Seva Group of Institutions will operate at least one school and/or college in all districts of Karnataka by the year 2022. Thereafter, the group hopes to take education to the doorstep of every student by opening schools in other states as well.

I have been associated with the Sathya Sai Institutions for over two decades now and one of the facets that this institute has been known for is its consistent, commendable academic performance. A mix of conventional and experiential teaching methods ensures greater responsiveness from students. A holistic environment offering values-based education makes learning a conscious process for both the teachers and students.

VENKATESH KAMATH
Warden,
Sri Sathya Sai University for Human Excellence,
Gulbarga
Education imparted at the Sathya Sai schools and colleges is to help students blossom into self-confident individuals who shine in all aspects: academic, cultural, co-curricular activities and sports. From horse-riding and paragliding to dance - drama and music, they do it all.

GRIT, GLORY AND GRANDEUR ON DISPLAY DURING THE ANNUAL SPORTS AND CULTURAL MEET.
A SNEAK PEAK INTO THE EVERYDAY LIFE OF A SAI STUDENT
Not all lessons are learnt within the confines of a classroom. The active promotion of the whole-school policy ensures that values are practiced by teachers and students through the day in play areas, dormitories, at home and at all times.

Until I joined this school, I was living with my mother and sister and they always made me feel loved and special. After coming here, I began living with more than 60 girls of my age. We all share our pencils, games and sweetmeats with each other. This makes me feel special.

ASHWINI KALIGI
Class VII,
Sri Sathya Sai Vaniniketanam
Coming from my home many tens of thousands of miles away, staying in the hostel was a new experience for me. I would often fall ill and would be reminded of the warmth and comfort of home. But my classmates, who I now call brothers, waited on me, enquired of my well-being and did little things to replace both sickness and homesickness. What they did for me was brotherhood in action.

When we started feeding a few hungry people - orphans and the elderly- about 25 years ago, we did not know we would be feeding hundreds in the years to come. This little act of community service that we do as friends and family thrice a week has fed our soul. My years of studying in the Sri Sathya Sai Institute of Higher Learning at Anantapur has taught me to be empathetic to people's needs and channelise this feeling into an act of service.
What distinguishes a great teacher from a good teacher? While one focusses on teaching lessons for living, the other imparts valuable lessons for life too! Teachers at these schools are embodiments of discipline, devotion, dedication, duty and determination. Here’s a glimpse of how a teacher in the Sathya Sai Institutions functions.

The Secret of Teaching:
Activity for the Head, Heart and Hand

1. Teacher as an exemplar of human values
2. Fostering an environment and culture of love
3. Offering spiritual and secular education in curricular, co-curricular and extra-curricular activities.
4. Imparting values-based education using direct and indirect teaching methods
5. Help students activate a sense of discrimination to inculcate love for God, fear of wrongdoing and morality in society
6. upkeep of hostel routine and general discipline
7. Overseer student participation in self-reliance programmes
8. Exhibit selfless service for transformation of self and students
Dr KP Sai Leela studied at the Sri Sathya Sai Institute of Higher Learning, Anantapur Campus and taught subsequently in the Department of English as Professor of English Literature for over four decades. She is now the Chairperson of all the girls campuses established by the Sri Sathya Sai Loka Seva Group of Institutions. In her capacity as Chairperson and Mentor, she moulds young girls to be examples of humility, selfless love and service.
The Sri Sathya Sai University for Human Excellence is being created to help meet the demand for teachers and professionals in realising the dream of an educated India. The university offers Bachelors degree in Science and Arts and has three wings: Centre for Higher Education, Centre for Training and Leadership Development and Centre for Research and Publications.

The primary purpose of this university is to train young men and women enrolled to take charge as teachers, administrators and staff in the Loka Seva Group of institutions. However, the greater purpose is to mould these individuals to be torchbearers of values that can lead students on to a path of loving and serving the nation and the needy.
It is my good fortune that I am receiving values-based education along with high quality academic education completely free-of-cost. Bhagawan Baba always reminds us that the purpose of education is to serve the society and we as students of this unique system of integral education should be able to pass on the values and spread the light to many others across the country. This is how we can express our gratitude to this great Institution which is taking care of us and moulding us.
Baba has said that this university makes Gods out of men and women! Enthusiasm, courage, fearlessness, intelligence, strength and valour are the six qualities I am trying to imbibe every single day. Whatever we learn must be made relevant to society, and service to society and the nation must dominate our thought, word and action. After all, having received free education, isn’t it my duty, and the duty of all my brothers and sisters from this institution to give back what we have received?
The alumni of the Sri Sathya Sai Educational Institutions are an integral part of the growth and sustainability story of the Loka Seva Group of institutions. Their involvement ranges from providing financial sustenance to bringing skills and support from outside to introducing best practices in the campuses. The alumni are also actively involved in counselling and mentoring the current students.

The alumni bring expertise and know-how from within and outside the community in areas such as eco-sustainability, green initiatives, water conservation, skill development & personality development. These engagements offer a valuable opportunity for the students to engage with people from diverse walks of lives, providing them with the much-required exposure to facets of life which aid in their wholesome development.
ALUMNI INTERACTING WITH STUDENTS AND HELPING THEM LEARN MUSIC
The Each One Education One Foundation (e1e1) supports children from the deserving sections of the society in completing their education by sponsoring their school fees. Currently, the two-year old trust, registered as a charitable institution ensures children from rural India enrolled in the Loka Seva Group complete their schooling without worrying about who’s going to pay for them.

The Foundation’s functionaries include a team of five trustees and ten central council members - all former students of the Sri Sathya Sai Educational Institutions who have come together to shoulder the responsibility to gift education and transform lives. Today e1e1 has become a movement with the society coming forward to make education a right for rural children and help break the inter-generational cycle of poverty, myths and social evils.
MISSION

To serve as a global platform for like-minded individuals and institutions to participate in giving every child access to quality, values-based, holistic education.

VALUES

To support and partner with schools across the world through E1E1 Chapters by:

1. Prioritising education for children in the hinterland and those from economically disadvantaged backgrounds.
2. Ensuring students are offered free, values-based education.
3. Offering a safe environment for students by enrolling them in E1E1-partnered residential schools.

VISION

A world where every child has access to free, quality, values-based, holistic education.
Each One Educate One works on the premise that education is a service and needs to be offered free of charge especially to those who are drawn to learning but are unable to go to school because they do not have the means for it. For building schools and buying books, for gaming boards and keyboards - the company that earns is paying for those who want to learn to perpetuate the cycle of giving.

**HOW GIVING BEGETS GIVING**

**INR 18,000** is the cost to sponsor education of one child per year

---

**Each One Educate One Program Funds Free Education**

**Section of Society Funds Infrastructure**

**Students return to serve in schools; pay for those studying**

**EDUCATION AS A SERVICE**
True, giving is more joyous than receiving. But like a little girl once said famously, no one ever got poorer by giving. For the little gift of education, we have received the boon of transformation in return. For all this and more, we will strive to put in a lot of love into what we give.

The Each One Educate Foundation was established in the year 2017. By the year 2022, the trust hopes to educate 15,000 students.
What makes Each One Educate One a successful social movement is the partnerships we enjoy with individuals and institutions. Together, we multitask and help students learn more than just their lessons. We light up lives - ours and theirs. Here are some stories.

On reading the E1E1 newsletter, I felt an inner urge and was encouraged by my wife to explore the magic of nurturing these young saplings. The experience of sharing has been undeniably beautiful when I think of the values-based education the children are getting.

MR SATHYAN BALA
SENIOR TECHNICAL EXPERT, IT & ADMINISTRATION:

All of us - accomplished, modern women of this century - are where we are only because of the education we have been blessed to receive. The little girls who are not lettered are more likely to be married off as girls and would be subject to more social ills. The only solution to this is providing the right kind of education. E1E1 does just that. Being part of this movement has truly added value to my life.

DR HIRAMALINI SESHADRI
RHEUMATOLOGIST, SINGAPORE

As an alumnus of the Sri Sathya Sai system of education, I can see the impact values-based education has had on my life. Having been a recipient of this, I wanted more children to enjoy the fruits of the same. Each One Educate One Foundation gave me a platform to take this forward and contribute towards educating many more children.
HOW THE PENNY PAYS FOR EDUCATION

Teachers’ Salaries 60%
Cost of Books and Uniform 10%
Maintenance Expenses (School Building) 10%
Laboratory and Library Upkeep 10%
Statutory Fee payable to Boards of Education 5%
Miscellaneous Expenses 5%
Treat the patient; not the disease.

~BABA

HEALTHCARE
CHAIRMAN'S NOTE
BRINGING HEALTHCARE CLOSER TO YOUR HEART

The challenge of a healthy childhood in India is two-pronged. First, those detected with diseases and defects face inadequate availability and accessibility of quality healthcare and second, the large number of those who remain undetected or undiagnosed sadly miss out on the joy of a healthy and happy childhood.

The burden and pain of congenital heart diseases on children and their families is a cruel and a regrettable reality of our times. Unfortunately, it is the commonest disease at birth in India with an incidence of 3,00,000 per annum. In answer to the painful calling of a mother and her dying baby, Sri Sathya Sai Sanjeevani endeavours to heal tender hearts in need. The hospitals are one-of-their-kind centres for child heart care providing totally free of cost care to the needy, thereby, restoring ‘Dignity of Life’ to every child and bringing untold relief and joy.

Sri Sathya Sai Sanjeevani aims to establish a holistic ecosystem for child heart care. These centres across India are unique in as much as they are high quality and large volume pediatric cardiac centres, as they are key nodal centres of community health, research and training.

We recognize the importance of prevention and early detection in comprehensively addressing this national burden. While our research program aims at unraveling the possible causes of Congenital Heart Diseases, the Divine Mother and Child Health Program provides access to quality healthcare facilities through its rural antenatal care and child screening initiatives.

The child is tomorrow’s citizen and the future of the country. With our eyes on the stars and our single pointed focus on every sick child before us, we will move ahead!

Sincerely,
C Sreenivas, Chairman
Sri Sathya Sai Health and Education Trust
DEVOTED TO HEALING HEARTS
The health of a child is the true wealth of the nation. The Sri Sathya Sai Sanjeevani Hospitals were envisioned to protect children from heart disease. Through its chain of hospitals, these Centres of Heart Care treat children completely free of cost, restoring dignity to a child’s life and gifting a healthy childhood to them. The three hospitals at Atal Nagar (formerly Naya Raipur), Chattisgarh, Palwal, Haryana and Kharghar, Mumbai in India have touched little hearts from across 29 states and 12 countries so far. The Sanjeevani chain of hospitals fall under the Sri Sathya Sai Health and Education Trust that was established in 1970 to set up and run hospitals and offer treatment totally free of cost. All services are based on the five cornerstones of healthcare: universal, free, loving, comprehensive and preventive.
MISSION

❖ To endeavour to serve in greater measure the national burden of child ill health Totally Free of Cost and to become an Institution of Pediatric Cardiac Excellence for India and several developing countries.

❖ To develop skilled and compassionate medical, nursing and allied health care providers trained to collectively address the burden of congenital heart disease.

❖ To advocate the Right to Healthy Childhood by bringing sharper focus in the area of child heart care, enabled by research and technology solutions that inform all stakeholders in the healthcare spectrum of preventive, curative, educative and to ensure every child with Congenital Heart Disease has access to quality and affordable health care.
VISION

To serve the cause of ‘Right to Healthy Childhood’ through creation of a holistic eco system resulting in reducing the global congenital heart disease burden.

VALUES

- Free Services
- Healthcare for All
- High Quality Care
- Complete Care Spectrum
- Spirit of Volunteerism
If a child survives a heart disease, it is a miracle. In India, about 1.5 lakh children are born with cardiac ailments every year. However, only a fraction of them are able to afford quality treatment and perhaps just a few hundred of these kids survive. The prevalence of this disease underscores the pressing need for more quality institutions that would be centres of excellence providing affordable and quality pediatric cardiac care to the poor.

**THE HEART OF THE MATTER:**  
**PREVALENCE OF HEART DISEASE IN INDIA**

*All figures published are sourced from the National Family Health Survey IV report published by the Government of India in 2017.*

1 OUT EVERY 100  
The incidence of cardiac ailment in Indian children < age 12

8 OUT OF 1,000 LIVE BIRTHS  
The digit that tells you how many babies are born with CHD

25 OUT OF 100  
The number of children born with CHD requiring surgery in the first year

$4,000 - $6,000  
Cost of surgery to rectify CHD at Indian private hospitals

*HOW HEALTHY IS AN INFANT’S HEART?*
The Sri Sathya Sai Sanjeevani Ecosystem aims to address the burden of congenital heart disease through a comprehensive approach. Holistic well-being of an individual has two asks:

a) that quality healthcare offered at hospitals be integrated with effective preventive health checks and

b) that education and awareness go hand-in-hand with curative and preventive healthcare.
The centers for child heart care at Sai Sanjeevani offer diagnostic cardiology and treatment for congenital heart diseases. Through state-of-the-art operating theatres and cath labs across the centres, Sai Sanjeevani handles the entire spectrum of pediatric cardiac interventional and surgical procedures.

**CURATIVE CARE**

**FACILITIES AT THE HOSPITALS**

- Dedicated Pediatric Cardiac Cath Lab in both centres
- State-of-the-art operating theatres in both centres
- ICU, Step-down ICU, post operative ward, pre-operative ward
- Pre-cath and post-cath wards
- Free communal accommodation for families of admitted patients
- Free food for families of admitted patients in canteen
- Play areas for children
- Universal Prayer Room
- Sowbhagyam: Centre for Human Development (Atal Nagar), focusing on arts & culture and community engagement.
- Staff accommodation on campus
- Central Sterile and Supply Department & Laundry
Transcending Geographical Boundaries, the team of doctors from hospitals in India offer their services in countries where medical centres have been established to treat children with cardiac ailments. To the three centres in India too, patients have come from many a developing country: Pakistan, Afghanistan, Nepal, Bangladesh, Sri Lanka, Fiji, Uzbekistan, Nigeria, Liberia and Yemen.
The Divine Mother and Child Health Programme (DMCHP) is a preventive and educative healthcare programme conceived and implemented by the Sai Sanjeevani chain of hospitals. It was initiated to rectify development disabilities in children and address nutritional deficiencies in expectant mothers.

The Child Health Screening is based on Government of India’s Rashtriya Bal Swasthya Karyakram (RBSK) and focuses on detection of 4Ds i.e, Defects at birth, Deficiencies, Diseases & Developmental delays and disabilities. The program expanded into the Divine Mother & Child Health Program in September 2017, focusing on preventive care for pregnant women and children.
Unfortunately, but quite naturally, maternal malnutrition leads to child malnutrition as it affects the growth of the fetus while in the womb. To help correct this situation, the programme works with primary healthcare centres to improve the general health of mothers, infants and young children.

THREE VERTICALS:

MOTHER AND INFANT: Attended to by a doctor and 2 health workers/volunteers

CHILDREN < 6 YEARS: Doctor and a volunteer

CHILDREN > 6 YEARS: Screening in govt. schools, rural schools by the DMCHP team
In a short span of less than two years, the programme has been extended to serve people in six states of India: Andhra Pradesh, Karnataka, Chhattisgarh, West Bengal, Maharashtra, Haryana. The team of doctors, healthcare workers and volunteers have successfully reduced incidence of birth defects, ensured healthy weight of the baby and set the stage for good health of both. The programme has an active number of participants from other medical colleges and hospitals. MS Ramaiah Medical College, RV Dental College, Dristhi Eye Care, Rajiv Gandhi University of Health Sciences are some of its partners.

Medical camps are conducted for expectant mothers on Sundays. A maternity health kit is handed to them which has necessary vitamins and a protein supplement.
SaiSure is the much-needed multi-nutrient supplement programme for expecting mothers, toddlers and growing children in rural India. Easy to implement, economical and effective, this multi-nutrient supplement programme promises to ably support the many nutrition drives run by both the state and central governments. It was launched through Annapoorna Breakfast Programme and Divine Mother and Child Health Programme in schools and primary health care centres.

In Karnataka, SaiSure- For Children, complements the existing Ksheera Bhagya programme of the Government where close to 1.05 crore children are served 150 ml of milk everyday.
WHAT'S IN A NAME?

SAISURE - FOR CHILDREN:
Extruded rice powder, defatted soya flour, extruded ground nut powder, puffed moong dal powder, gluten removed wheat powder, extruded corn powder, malted barley powder, oat fibre, vitamin A, vitamin C, folate, thiamine, niacin, riboflavin, vitamin D, vitamin K, pantothenate, biotin, calcium, phosphorous, iron, zinc, selenium, powdered almonds.

SAISURE - FOR PREGNANT WOMEN:
Skimmed milk powder, whey protein concentrate, soya protein isolate, whole cream milk powder, maltodextrin, malt extract, DHA, maltitol, oat fibre, vitamin mix and mineral mix.

BENEFITS FOR CHILDREN
- AIDS IMMUNITY
- MORE BONE AREA
- MORE MUSCLES
- BETTER CONCENTRATION
- HEALTHIER BLOOD
- HEALTHY WEIGHT GAIN

BENEFITS FOR WOMEN
- STRONGER BONES
- AIDS IN TISSUE GROWTH
- REDUCES RISK OF PREGNANCY
- IMPROVES ASSIMILATION OF VITAMINS
- AIDS IN WEIGHT GAIN
- IMPROVES IMMUNITY
The centre aims to conduct academic, training and skill development programs for doctors, nurses and allied healthcare providers to address congenital heart disease. Through partnerships with international academic institutions, visiting fellows and faculty members obtain clinic experiences in understanding how the tertiary healthcare delivery models in philanthropic institutions work.

EDUCATIVE:
KNOWLEDGE IS THE BEGINNING OF EXCELLENCE

PROGRAMS

❖ Fellowship, Clinical Rotation, Observership and Exchange programs for national and global medical students
❖ Graduate, Post Graduate and Skill Development Programmes for nursing students and practitioners in cardiac care
The Sri Sathya Sai Sanjeevani Research Centre for congenital heart diseases, Palwal is India's first exclusive genomic research centre to study cause of Congenital Heart Disease. The centre would also host a Biobank. The research centre collaborates with national and international research institutes to jointly study the causes of congenital heart diseases and find remedies for prevention and cure.
GOVERNMENT OF INDIA

Empanelment of the Sai Sanjeevani Centres for Child Heart Care in Chhattisgarh and Haryana in the ‘Pradhan Mantri Jan Aarogya Yojana (Ayushman Bharat) scheme—the world’s largest health protection program to offer free healthcare for children suffering from cardiac ailments.

Chirayu Chhattisgarh Centre of Excellence in Pediatric Cardiac Care and Training is a joint initiative by the Government of Chhattisgarh and the Sai Sanjeevani Hospital. The centre was established to treat patients from State of Chhattisgarh.

OUTREACH PROGRAMMES

The Sai Sanjeevani International Centre for Child Heart Care and Research, Palwal runs rural outreach programs to strengthen the Rashtriya Bal Swasthya Karyakram (RBSK) and Janani Suraksha Yojana initiatives under National Health Mission – Government of India to reduce Infant Mortality Rates and Maternal Mortality Rates.
Divine space to celebrate, deliberate on progressive action towards Integrated Human Development.

- 700 seater auditorium and a 1,000-seater amphitheatre for open air performances.
- Venue to promote discussion and enable action in art, culture, educare, societal advancement.

Since 2015, Sowbhagyam has partnered with many firms to host medical and academic conferences, music shows and yoga programmes.
SPECIAL INITIATIVES

MATRUCHHAYA
Mothers trained by doctors and paramedics to assist in caregiving process after surgery to lessen usage of drugs and quicken recovery time.

GIFT OF LIFE
Certificate presented to patients at the time of discharge reminding them to perpetuate the act of service by serving others in need as responsible citizens.
This act of compassion promises to change the lives of so many of India’s children who are in dire need of Pediatric Cardiac care services. 

SACHIN TENDULKAR at the launch of the ‘India Cares’ campaign

DOCTORS WITH COMPASSION

An orientation program to sensitise healthcare practitioners and paramedics on the importance of adopting a humane approach in Sai Sanjeevan’s transformative role of healthcare.

SANJEEVANI SAHAYAK

An initiative for families of patients who befriend Sanjeevani in giving back to the hospital by volunteering in the canteen, front office, counselling, etc.
Sai Sanjeevani’s teams at Chhattisgarh and Haryana have been recipients of many awards for their noble work in saving the lives of young children.

- Award from Tarachand Bimladevi Foundation - April 2015
- Sach Bharat Award by ASSOCHAM - December 2015
- ASSOCHAM - Medcon (Single - Specialty Hospital of the Year) - 2016
- MP CG Lifeline - 2016
- Chhattisgarh Gaurav Award 2017
Promoting awareness of community health issues and preventative action is a vital part of any health ecosystem. Timely diagnosis ensures half the battle is won. Events to raise awareness about congenital heart disease are held to spread the word about caring for these little hearts.

**AIRTEL DELHI HALF MARATHON: #HEALINGLITTLEHEARTS**

Abhishek Jangir, age 12, a CHD warrior who had an atrial septal defect ran the Great Delhi Run in October 2018 when the event was conducted.

**ART FOR HEART**

It is a unique initiative to collect artwork and paintings to transform waiting areas, corridors, wards and other areas in the hospital into bright and lively spaces. The ‘Art for Heart’ Campaign has had an overwhelming response where artists painted over 100 murals in just four months.

*(Figs stated from November 2012 to December 2018)*
The Aarogya Vahini programme in Kolkata, West Bengal, set up by the trust with a synonymous name provides holistic, high-quality and free healthcare and sociocare services to rural India. The working model of this trust includes mobilising members of the society - youth, professionals and all those willing to work jointly in creating a cleaner and healthier society.

With a specialised centre for outpatient consultation and a mobile medical van, the scope of services offered to rural patients include seamless availability of quality diagnostic and curative services.

**BETTER HEALTHCARE FOR BENGAL**

- **SRI SATHYA SAI AMRUTHAM:** Centre for specialised outpatient care
- **SRI SANNIDHI:** Integrated Mobile Medical Units for Outreach Screening Camps
- **DIVINE MOTHER & CHILD PROGRAMME:** Comprehensive health screening for expectant mothers and children below the age of five
- **TELEMEDICINE:** Real time Expert Consultation through online platforms
HEALTHCARE AT THE DOORSTEP

With two fabricated mobile medical units supported by an ambulance and a patient transport vehicle that enables screening, diagnosis, treatment and referrals, free health services are provided to more than 100 villages in six districts of West Bengal.
To make quality primary and tertiary care affordable to all, the Aarogya Vahini Trust collaborates with various institutions for its doctors and paramedics to upskill their know-how and prowess.

TRAINING & CAPACITY BUILDING PROGRAMS
For enhancing skill sets of nurses and paramedics during screening, diagnostics and interventions.

COLLABORATIONS & PARTNERSHIPS
For fostering institutional collaborations and tie ups to extend tertiary care services for patients referred to these institutions after diagnosis.

COMMUNITY ENGAGEMENT
Individual and community-based engagement for creating stronger teams to achieve healthcare objectives.
The mobile medical van has five compartments for pathology, dental, general and cardiac screening, ophthalmological, oncological and pharmacy services.
What started as a small consultation centre in 1979 as the Sri Sathya Sai Loka Seva Health Centre, in Sathya Sai Grama, Muddenahalli, has now morphed into a hospital where healing with love and bettering human condition occupy centrestage. The Sri Sathya Sai Sarla Memorial Hospital, run by the Prashanthi Balamandira Trust was established to improve the health of villagers, particularly women and children. The 30,000 square feet hospital is being built in two phases and houses all departments pertaining to general health and overall well-being.

With its staff of close to 30 caregivers, the centre treats patients free of cost for common ailments. On an average, the able team of doctors see about 4,000 walk-ins each month.

To reach out to a wider patient base, the Centre also conducts medical camps, takes health care to the villagers’ doorsteps and pays periodic visits to government schools in the vicinity. At the camps, children and adults are screened and treated for disorders and ailments.

The Centre also works collaboratively with reputed medical colleges and hospitals such as M.S.Ramaiah Medical College, M.S.Ramaiah Dental College, R.V.Dental college and Dhristi Ophthalmic Unit and Sri Krishnadevaraya College of Dental Sciences.
PATIENTS AT THE MONTHLY MEDICAL CAMP
NUTRITION
MISSION

Serve each child from the goodness of your heart

—Baba

VISION

To nurture school-going children in rural India and disadvantaged sections of the society with nutritious breakfast, while also catering to their emotional and spiritual needs.

To expand presence to all government and government-aided schools in the country.

To enable rural uplift and transformation, and help make Indian villages ideal in terms of sustainable growth and development.

VALUES

To offer all services free of cost to children.

To offer all services to children sans any socio-economic and religious discrimination.
NOURISHING THE NATION THROUGH NUTRITION

From the desk of the Chairperson

There is no greater investment than investment in the health of our country’s children. It is the simplest and most effective way to secure the future of our nation. But sadly, child malnutrition is a haunting reality for us. At Annapoorna, we work towards alleviating hunger and undernourishment in rural and underprivileged school-going children by providing them with a healthful breakfast.

Since we started, we have been a fortunate witness to the transformative power of the indispensable breakfast. Higher attendance, lower dropout rates, improved health parameters, marked increase in academic performance and attentiveness — and the list goes on. But the most gratifying impact of the breakfast programme has been the transformation it has kindled in these children. Inspired by the volunteers and their dedication, the children have on multiple occasions expressed their desire to pay it forward to the society when they grow up. While our reach has grown tremendously over the years, I reckon it is the inner transformation, in both the children and us, that’s our biggest achievement.

When you have millions of children to take care of, providing breakfast becomes much more than a daily tradition. It is what inspires the 500 Annapoorna volunteers across 2800 centres in 17 states to show up and serve breakfast every single morning.

In the coming year, we hope to reach our nutritious breakfast programme to more than five lakh children. We also hope to increase focus on the water and sanitation aspects of our work offering, keeping a child’s holistic well-being at the centre stage.

Setting a child on a holistic path with good daily nutrition and the ability to attend and succeed in school is our collective social responsibility, and one, which will go a long way in changing the face of rural India.

It is our dream to build a nation, where no child goes to school hungry ever.

We’re here until then.

Sincerely,

Narasimhachari Sampath
I live in the Doddabele village. I wait eagerly to come to the centre every morning. My parents too are happy to send me here as I get good breakfast and milk here and lunch in school.

I have made many new friends in the centre. We have all learnt to keep our plates clean and ourselves tidy. Earlier I never used to wear ironed clothes to school. But now, I don’t leave my house if my uniform isn’t ironed.

SHIVKUMAR S  
Age: 10  
Doddabele Government Primary School  
Karnataka

MORE THAN 70% OF SCHOOL-GOING CHILDREN IN INDIA ARE UNDER-NOURISHED!

SOURCE: NATIONAL FAMILY HEALTH SURVEY - 4
What began as an altruistic drive by a handful of individuals in 2012 has now burgeoned to become one of the largest meal programmes in the country today. In the last six years, more than 20 million nutritious breakfast meals have been fed, making tiny bellies belch with joy.

While the breakfast programme in Karnataka was Annapoorna Trust’s flagship initiative, it has now spread its presence across 17 states in the country. What’s more, its service offerings now extend beyond nutrition. The Trust also invests in improving health and providing values-based education to children, thereby, ensuring all-round development of the children.
SHALINI RAJNEESH
Former Principal Secretary, Education.
Government of Karnataka.

We are happy that free, nutritious breakfast is being served at 850 government schools covering over 60,000 school children in the state. I compliment the Annapoorna Trust for providing such yeoman service in other states as well. The Government of Karnataka will collaborate with Sri Sathya Sai Annapoorna Trust for providing this service to all the children in the state.
WHAT’S FOR BREAKFAST?

We put a lot of thought into what the children eat. The 200,000 meals we serve at various government-run schools and centres include three offerings. Children are served cooked breakfasts, milk and banana, and a protein mix with milk.

The World Health Organisation (WHO) and the United Nations International Children's Fund (UNICEF) have recognised the importance of breakfast in contributing to healthy behaviours of children and in reducing health inequalities across the world. Breakfast eating must be promoted by all governments across the world as part of their nutrition information campaigns.

* The statistics reflect the picture as recorded on December 2018.
Annapoorna in partnership with the Sri Sathya Sai Health and Education Trust provides the SaiSure™ protein mix in some of its centres. SaiSure is a health mix, which acts as a supplement when added to milk. It contains the much-needed iron, protein, vitamins and carbohydrates, which make milk more enriching, nutritious as well as tasty for children. Each student is served with a spoonful (or 10 gms) of this powder with milk every morning.

Easy to implement, economical and effective—this multi-nutrient supply programme promises to ably support the many nutrition drives run by both the state and central governments.

Launched as a pilot in select Annapoorna schools, SaiSure has seen very encouraging results in terms of ease of use, scalability and most importantly as improved health parameters of the recipients. The Governments of Karnataka and Puducherry have now partnered with the trusts to make the protein mix available to all children in the State and Union Territory.
High quality, nutritious food alone is not enough for the children. Clean water, which is the elixir of life, is much-needed too. When it was observed that the children at some of the schools Annapoorna served breakfast at kept falling ill, the Trust, after a thorough inspection, began executing drinking water projects too to meet the water needs of villages.

Simple and cost-effective RO water plants fitted with bio-sand filters were developed on a need-basis in the villages. So far, over 20 drinking water plants that use the reverse osmosis process have been installed at schools and community centres, and more than 200,000 villagers benefit from this. A smart card to ensure equitable distribution and reduce wastage has been given to each family.

To meet the sanitation needs, 20 toilets have been constructed at various schools.
The Integrated Rural Development Programme is an initiative to raise awareness among young Indians about the challenges in rural India and create technology-based solutions. It is a credit-based course for degree students in their third and fourth semesters, and is facilitated by the Annapoorna Trust. The IRDP course has been introduced for 600 students across different streams so far.

The Trust also collaborates with the Each One Educate One Foundation and supports the education costs of Annapoorna children on a need basis. So far, more than 40 children have received sponsorships for education.

The medical camps are to correct the 4Ds - Defects, Deficiencies, Developmental Delays and Diseases.
Annapoorna’s band of committed volunteers are its biggest strength and ensure that the quality of service is never compromised. From serving food to keeping tabs on ration requirements to ensuring children are served piping, hot meals generously, the volunteers do it all!

They are the critical link between the schools and Annapoorna in the breakfast continuum. They contact and communicate with the various stakeholders in the community and are instrumental in developing lasting relationships with school staff and government officials.
Prior to the start of the breakfast programme, I used to volunteer for a medical camp at this school. It was noticed the children would often complain of headache and dizziness. We reckoned the children were suffering from hypoglycemia and often gave them candies. But once the Annapoorna breakfast programme started at the school, it took care of every complaint. I can see that the children have now gained weight and look healthier.

SAI TULSI
Nutritionist

I have visited the government schools, where breakfast is served to the children as part of my company’s employee engagement programme with these schools. During my interaction with the children, I understood how important breakfast is to them. It’s perhaps the only meal they would eat on time.

AJAY S
Senior Analyst, Oracle
The Annapoorna Trust has many state governments and private institutions partnering and supporting its breakfast programme and other initiatives. Formal agreements with state governments in the form of Memoranda of Associations, and as Partners for Social Change with corporate firms have been instrumental in helping Annapoorna expand the scale of its operations and reach more children, without compromising on the quality of its meals.

### MOUs WITH STATE GOVERNMENTS

- **SEP 2017**: MOU Sign up with Govt. of Puducherry
- **OCT 2017**: MOU Sign up with Bhongir District, Govt. of Telangana
- **OCT 2017**: MOU Sign up with Local Self Govt Groups, Govt. of Kerala
- **NOV 2017**: MOU Sign up with Education Department – Govt. of Andhra Pradesh
- **MAY 2018**: MOU Sign up with Education Department – Govt. of Karnataka
REWARDS AND RECOGNITIONS

For its outstanding achievement in alleviating hunger amongst children, the Annapoorna Trust has won many accolades since inception.

* First Prize in the CSR Competition conducted by Intel India for its employees.

SOCIAL RETURN OVER INVESTMENT (SROI) - 1.89

It implies that for approximately every one Rupee invested, 1.89 Rupees of social value is created each year.

Social return on investment (SROI) is a method for measuring values that are not traditionally reflected in financial statements, including social, economic and environmental factors, which can identify how effectively an organisation uses its capital and other resources to create value for the community.

IN GLIMPSES:
THE ANNAPOORNA BREAKFAST PROGRAMME
MISSION

To spread love through service

VISION

To bring together an international community of organisations, which share the goal of alleviating human suffering by making basic needs universally accessible to everyone, everywhere.

VALUES

❖ Service to be rendered selflessly suffused with love
❖ Care for the environment by undertaking green initiatives
❖ Promote harmony transcending all barriers of religion, nationality and gender
The Sai Global Federation of Foundations (SGFF) work together to meet the most pressing needs of humanity, globally. Through its sister organisations in four regions, it undertakes several projects for human uplift, guided by the unifying principle of ‘Love All, Serve All’.

The scope of work, spanning more than 30 countries, includes free treatment in medical clinics and hospitals, free schooling in educational institutions, programmes aimed at ending homelessness, projects to feed the hungry and provide clean drinking water to those without, elder and orphan care, animal care, teacher development and education, and the establishment of Centres for Human Development.

SGFF is more than a ‘Federation’. It is a family of foundations, trusts, societies and organisations that passionately share the same goal: to serve not only humanity but all beings and the planet itself. I firmly believe that the efforts we are making globally will not only impact individuals, their societies and their nations but will also serve to inspire others along this path of loving all by serving all.
ORGANISATION STRUCTURE

BOARD MEMBERS

BHUVANA SANTHANAM
Global Coordinator, Projects

JENNIFER CORNSWEEt
Co-Cooordinator, Sai Global Federation

SONJA VENTURI
Legal Advisor, Sai Global Federation
Sai Global Federation encourages the youth across the world to either join them in their projects or start their own. SGFF works with its youth volunteers in the following ways:

**SHARING**
It serves as a platform to share the best practices and works of member and non-member projects. They collaborate with a number of non-member groups worldwide that are involved in projects not represented by SGFF and encourage such groups to acquaint with member groups and projects. Such an exchange of perspective helps SGFF build on its work and its execution.

**ADVISING**
Having worked on multiple projects and people across age groups, countries and socio-economic backgrounds, SGFF draws on the collective wisdom and experience of its member groups and volunteers to guide, advise and collaborate with youth, the world over.

**INVESTING**
It brings together inspired youth and volunteers from all over the world and puts their time, energy and resources to good use. SGFF offers interested volunteers a platform to do good by either involving themselves in any of its member group’s projects or any good work that inspires.
The Federation organises itself into four regions with member-countries undertaking activities through registered trusts and societies approved by the home country. All members are bound by the code of ethics that form the cornerstone of the Federation.

This is the books, publications and communications division of Sri Sathya Sai Loka Seva Trust. It publishes excerpts of Sri Sathya Sai Baba’s discourses given in the subtle form, reports on events at Muddenahalli and compiles experiences of devotees through books published. Its e-store, saiprakashana.org and the retail store at its headquarters in Sathya Sai Grama, Muddenahalli, facilitate the purchase of various products produced.
PUBLICATIONS

**SAI UVACHA SERIES**
The Sai Uvacha Series is a compilation of select discourses given by Baba in India and overseas. In the six volumes put together by a team of dedicated volunteers led by Mr Issac Tigrett, the books inspire spiritual aspirants to dwell on and practice the teachings of Baba.

**TATTTWA SAMEEKSHA SERIES**
It is a compilation of discourses of Sri Sathya Sai Baba in His subtle form to the teachers of Sri Sathya Sai Loka Seva Group of Institutions during 2014 to 2017. This series is published in English and other languages.

**THE STORY DIVINE SERIES**
This sequence of compiled narratives are authored by Sri Madhusudan, the chosen communicator of Sri Sathya Sai Baba in His subtle form. The prelude and the sequel published are part of a trilogy that make for an inspiring and fascinating account of how various large-scale service projects were conceptualised and executed.

**LOVE BEYOND BOUNDARIES SERIES**
This series, authored by Ms Bhuvana Santhanam, is an account of the travels undertaken with Sri Sathya Sai Baba in His subtle form beyond the Indian shores. It is a bulletin of all the countries visited, projects initiated and lessons learnt.
'Swara Sudha', a music album that was conceived, christened and completed with the grace of Bhagawan Sri Sathya Sai Baba, is a humble offering of instrumental renditions of popular bhajans. When our beloved Swami incarnated on earth, musical instruments miraculously began to play by themselves, proclaiming and welcoming the Lord. This Instrumental Album is an attempt to invoke that SAI who is seated in the heart of every listener.

ARADHANA TRUST

Samastha Loka Sukhino Bhavantu
This Trust oversees the financial and administrative aspects of the sacred ceremonies and rituals conducted at Sathya Sai Grama, Muddenahalli and at other locations where the temples belong to the Trust. The ten-day **Dussehra** festival too is performed under the aegis of this Trust. The ceremony is performed with much gaiety, pomp and fervour at the ashram premises; the **Maha Rudra Yajna**, **Durga Puja** and the **Navaratri Homas** are conducted too.

Spiritual practices are conducted with the twin objective to heal the body and mind, and usher in peace throughout the world. All the festivals celebrated in Sathya Sai Grama are a joyous expression of music, dance and theatre.
Pictures from the Maha Rudra Yajna conducted annually in October where students are exposed to Indian culture and scriptures. Prof Prema Pandurang - one of the guest speakers during the 2018 Dusshera gave her commentary on the Bhagawad Gita.
The Loka Seva Group of Institutions and its sister institutions conduct conferences for teachers, doctors and youth from India and abroad, on various aspects of education, healthcare and empowerment.

The National Teachers’ Conference and the World Youth Meet are conducted every year in May and November respectively. The teachers’ conference engages with teachers and administrators in the education fraternity to conduct programmes on value education.

The three-day youth conference has one theme for each day and the events are an enviable confluence of great minds where renowned speakers address the delegates on various socially relevant issues.
Youth from over 30 countries participate in the World Youth Meet in November every year.
ONE NATION

Great nations are propelled by the resolve of the noblest of individuals working selflessly towards betterment of the society through various social interventions. Today, if many of the world’s problems have to be solved, they would demand the same sacrifice and fervour displayed by our freedom fighters to make strides towards societal advancement.

As a responsible and inclusive group of institutions established to serve the society, we deem it not only an obligation, but a great opportunity to bring together all strata of society to build a better tomorrow and a better nation.

The One Nation event held on January 26th and August 15th on India’s Republic and Independence days, is a forum for leaders from different industries to commingle and compare notes on how corporate social investment can best address social inadequacies in our society.

SRI A BALASUBRAMANIAN,
Chief Executive Officer,
Aditya Birla Sun Life AMC Limited
Pictures from the One Nation events held in Hyderabad, Mumbai and Bangalore in August.
When India’s southern states of Kerala and Karnataka were ravaged by raging flood waters during the monsoon of 2018, teams of volunteers from the Sri Sathya Sai Seva Vrinda’s service wing, rose to the occasion. Relief camps were set up and food, water, and provisions were distributed in the most affected parts of the two states.

A survey was conducted by the volunteers and relief camps were set up in association with other service organisations such as the Ramakrishna Mission in South Kodagu district to handout provisions for a month to the affected families.

### RELIEF KIT ITEMS:
- 32 essentials including food and non-food items, vegetables and basic medicines.

### NUMBER OF RELIEF KITS DISTRIBUTED:
- 2,500

### DISTRICTS IN KERALA & KARNATAKA:
- Wayanad, Kannur, Alleppey, Mallappuram, Kodagu

### NUMBER OF HOUSES TO BE REBUILT:
- 1,000 in Kerala and Karnataka
RELIEF AND REHABILITATION WORK UNDERWAY BY VOLUNTEERS OF THE SRI SATHYA SAI SEVA VRINDA AND THE SRI RAMAKRISHNA MATH AND MISSION, KODAGU DISTRICT.
The audited financials concerning the different trusts are presented in this section in both Rupee and Dollar denominations. The accounts represent the financial statements for the year ending March 2018.
